BIBLE THOUGHT FOR TODAY
★ **THE RICHEST FRUITAGE:**—The fruit of the Spirit is love, joy, peace, longsuffering, gentleness, goodness, faith, meekness, temperance; against such there is no law.—Gal. 5.22, 23.

A SORRY MESS.

The whole discussion arising from the bank failure at Okmulgee has been a disgrace to the state. Judge Christopher should never have been appointed judge. It seems that he either did not know the law well enough or did not apply himself closely enough to empanel a grand jury, at least that is what he admits.

Not only this but County Attorney Hepburn displayed entirely the wrong attitude in not accepting the decision of the judge in the right spirit. The sanctity of the courts must be upheld and respected. It is true that judges now and then give decisions not as a matter of right and justice and law, but to shield or injure others. We are not saying that Judge Christopher did either of these, but even if he had it was still the duty of Hepburn to be dignified and respect the ruling.

Then, too, Governor Robertson has made mistakes. In meeting on his return from Mexico the attacks made by the Okmulgee people, he showed that his fighting clothes are on and is willing to do anything he can to straighten the affair up. At the same time he erred in attacking, just before he left, the grand jury which had been discharged. In his last statements he says nothing about the grand jury personnel, and it is taken for granted that he realizes the mistakes he made at first. A grand jury stands in much the same position as a judge. It is part of the court, and if our court system ever fails, the American system of government will crumble.

Now what is to be done? Let everyone stop playing politics and make an honest effort to untangle the tangled mass. From this distance it seems that the Republicans are trying to make capital out of a court ruling, which is getting close to anarchy. Then, too, there is a bit of smoke from the Democrats, and there must be some fire. At least, it is up to the Democratic office holders to clear themselves legally, and in the eye of the public.

We cannot express our contempt too strongly for any man or set of men, any political party or any faction which tries to make court rulings a means for advancing a political future. Such a course can lead only to the loss of the courts' power and thereby will come the downfall of the state and nation.

The annual race between the lion and lamb that occurs March 1 has been won by the lion this year with the lamb not even near enough to be classed as an also ran. In view of the fruit crop and need of moisture the low temperature and snow are most acceptable at this time. It is also hoped that the number of boll weevils in hibernation will be materially reduced. Meantime the lamb is due to usher out the month of March and that will suit better than if the race had gone otherwise.

The best information obtainable indicates that Mexico is in a more tranquil state than for the past ten years. This is indeed cheering for under normal conditions a great volume of trade passes between the United States and her neighbor to the south. Just now this country needs an outlet for its products and if Mexico gets over her habit of revolutions and gets down to business it will be a great day for both countries.

And now a row is on between Governor Robertson and County Attorney Hepburn. The point at issue is which is the better lawyer. At all events they hold diametrically opposite views on the Okmulgee grand jury matter. Since nothing about law is ever certain until the appellate courts have passed on it, we suggest that the matter be argued before the supreme court.

Senator Arthur Capper in his publications comes out strongly in favor of accepting Henry Ford's proposition in regard to Muscle Shoals. Capper, who should be in a position to know what he is talking about, says the fertilizer trust and other interests are carrying on a hard fight against Ford and advises people not to be misled by the propaganda with which the country is being flooded.

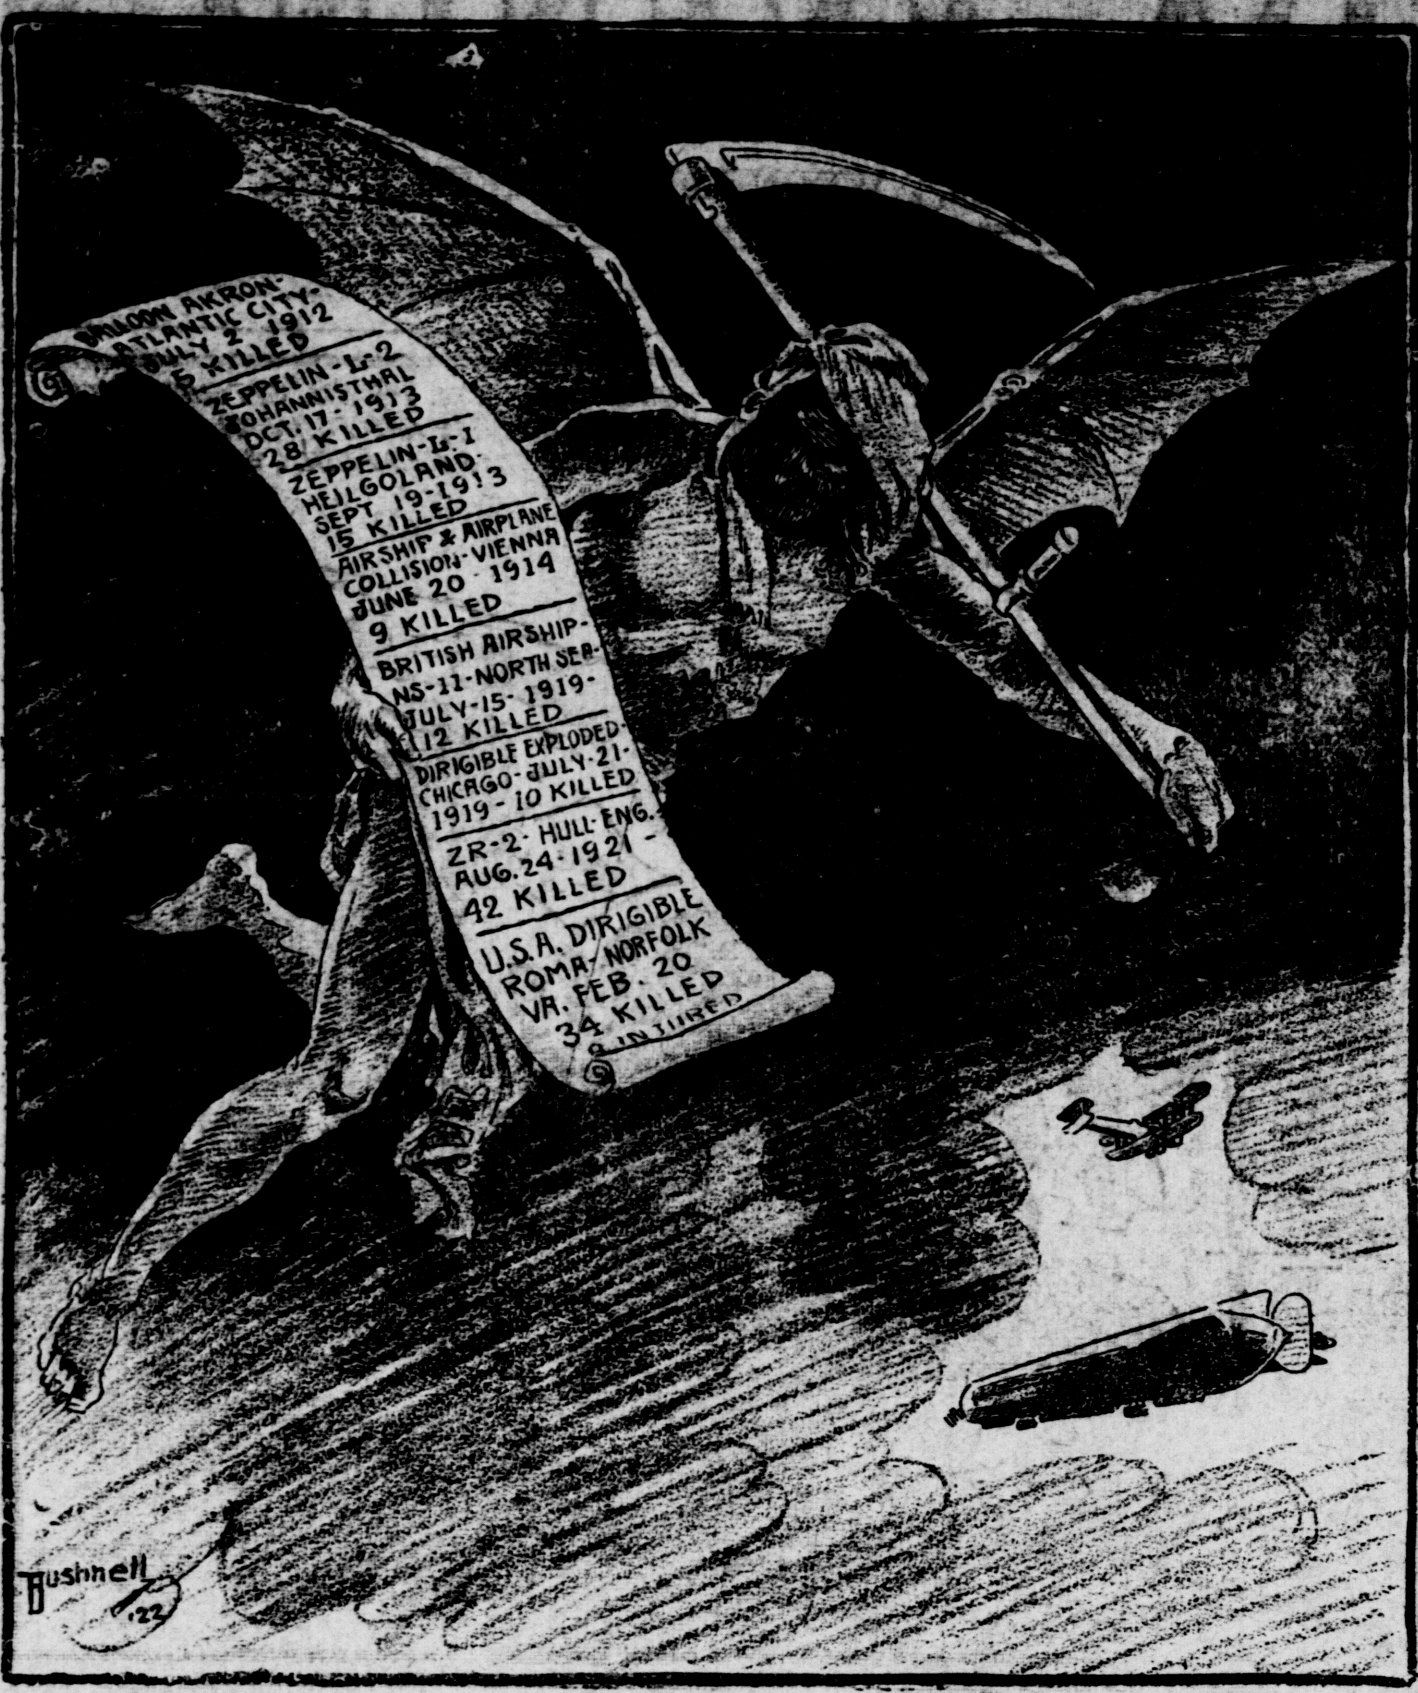

Times were never so flush that grouches were not croaking. If the day is sunny the grouch is sour because a day week is likely to be bad.

By the time a man gets to a point where he really has some ideas about life he reaches the age of discretion and quits telling lonesome women about it.

It is never wise to treat the fellow at the bottom with contempt. He may be on top tomorrow. It is well to remember that the caterpillar of today is the butterfly of tomorrow.

Princess Mary is married and high society can now take a breathing spell.

TRAGEDIES ALONG THE AERIAL FRONTIER

Ada Defeats Weleetka 38-12 In Opening Game of Season

Local Squad Repeats Its Gridiron Punch and Wins Easily From First Foes

Potts and Cunning Make Complete New Lineup of Old Stars.

With almost a complete veteran line-up, following two weeks of stiff and continued training, Coach Cox, mentor of the high school basketball squad, last night watched his men trample the hopes of Weleetka high school by defeating the visitors in the high school gym 38 to 12. The visitors were good sports and fought through the game, having the disadvantage of playing on a strange court. Team work, goal shooting and ability of the home team proved superior.

With Potts at center and Cuning, a new man for the quintet at guard, Cox had a formidable lineup. He, will in all probability, use this same lineup in other games to be played in the near future. The game last night was the opening one of the high school schedule, but was not a conference game. It was also the first game to be won this season by the local high school from an out of town team.

Rayburn in Shape.
Rayburn at forward for the first time was in shape and took advantage of the opportunities given him to shoot from the field. Potts was also in the game and got a good return from his efforts. Cuning, although having been out for basketball only one week, was his usual self in an athletic line and played his position at guard like a veteran. Wilsey, although not making much of a showing in scoring, darted around the court like an arrow, "feeding" the ball to Potts and Rayburn with accuracy, and making it impossible for them to score. His speed made it possible for him to pounce on the ball and be gone before an opponent could grasp the meaning of his action.

Cox Now Satisfied.
Coach Cox was well pleased with his men, stating that he was satisfied with the time devoted to goal practice. It was all his men lacked. The visitors were fast and fought hard, getting as many chances at goals as did Cox's men.

The Lineup.
Ada (38) Pos. Weleetka (12)
Wilsey F. Rasberry
Rayburn F. Fleming
Potts C. Jones
Cuning G. King
Molloy G. Cunningham
Subs: Weleetka, Herring for Fleming, Heiser for Jones, Ada, Gregg for Potts, Potts for Molloy.

Summary: Field goals, Rayburn 6, Potts 6, Gregg 1, Cuning 1, Molloy 1, Jones 3, Fleming 1, King 1, Rasberry 1; free goals, Wilsey 4, Rayburn 4. Personal fouls, Weleetka 12, Ada 10; technical fouls, Ada 3, Weleetka 3. Smith of Cement Plant referee. This was his first game to referee, and both coaches stated today that he was as good as could be asked. Smith called the game well, although inexperienced, they declared today. Both teams were pleased with the game, according to the coaches. Hamilton was the coach of the visiting team.

FRANCIS DOWNS WETUMKA SQUAD

Pontotoc County Team Is Easy Victor in 22-16 Contest Friday.

FRANCIS, Okla., Jan. 7.—Weetumka high school proved inferior to the Francis high school boys basketball team here last night and was defeated by the local squad by a score of 22 to 16. The game was interesting and enthusiastic ran high for the entire period of the contest. The Francis men have a long string of victories to their credit.

The Weetumka men were in good shape and played teamwork well, but the goal shooting of the Francis men was too much for the visitors. Heavy guarding by both sides kept the score down and at no time did either team have a decided lead. Steady playing of the home team, however proved to their aid in winning and they took advantage of the loafing periods of the visitors.

The line-up:
Francis Pos. Wetumka
Williamham F. London
Sampson F. Nichols
Rose C. Lucas
Patterson G. Blakely
Anderson G. Thompson
Subs: Wetumka, Maston for Lucas, Lowder for Thompson; Francis, Norman for Rose, Coach Green accompanied the Wetumka boys. Coach Newcomb had charge of the home team.

Swimming Record Lowered.
MIDDLESBOROUGH, Eng., Jan. 6.—The world's swimming record of 6 minutes 55 4-5 seconds for 500 meters held by Norman Ross, U. S. A., was lowered here recently by J. G. Hatfield, the holder of several British championships, who covered the distance in 6 minutes 51 2-5. Hatfield was timed by officials of the Amateur Swimming association, and the effort was made in public.

SOONERS START 1922 BASKETING SEASON TONIGHT

(By the Associated Press)
NORMAN, Jan. 7.—Coach Hugh McDermott's sooner cagers are to begin their 1922 schedule here tonight when they mix with Grinnell. The Oklahoma boys returned from their Christmas vacation December 30, in order that they might get some additional training before the opening of the conference season and Coach McDermott believes his charges will make a good showing against the Iowans.

A slight revision in the Sooner's basketball schedule for the season has been announced by Ben G. Owen athletic director. These are games to be played with the Oklahoma Aggies, at Stillwater January 28 and at Norman March 1. A game has also been arranged for February 11 with Kansas at Lawrence. The revised schedule includes sixteen conference games and two with the Oklahoma Aggies.

Owen originally planned to play two games at home and two abroad with the Kansas Aggies thereby playing his entire schedule within the conference, but the Kansas Aggies extra games were dropped in favor of the Oklahoma Aggies for a home and home arrangement. The Aggies are the strongest athletic opponents within the state, Owen indicated, and for this reason did not want to lose connections with them.

5000 French Women Replacing Men Now In Sporting Circles

(By the Associated Press)
PARIS, Jan. 9.—Five thousand women of France, between the age of 15 and 30, are taking part in athletics, in which men have figured mainly in the past. One hundred yards in 11 4-5 seconds, 1,000 meters in 3 m. 17 4-5 sec., stand as a joint British and French feminine record, Miss Lines of England, and Mademoiselle Bizard of France, covering the respective distances in such time as would make many masculine athletes envious.

In 1909, the "Forward" feminine section of the French Sporting Federation was founded. Sixty-two members formed the original club. It now numbers 1,500. Mademoiselle Therese Brule of the latter club, won over the 110 meters (10) hurdles in 17 1-5 sec., just two and one-fifth seconds slower than the world's record held by Earl Thompson of Dartmouth.

Bo McMillin Winds Up Stellar Record In Ft. Worth Game

(By the Associated Press)
FORT WORTH, Jan. 8.—Bo McMillin's Kentucky All Stars wound up the season by defeating the Fort Worth All Stars, 7 to 0, in a bitterly contested game at Panther Park Friday afternoon, in which police several times had to go on the field to prevent personal encounters between opposing players.

Cecil Griggs, formerly of the Wichita Falls team and the Canton Bulldogs, fullback for the Kentuckians, carried over the ball in the winning play, which came in the third quarter in a spectacular manner.

McMillin personally starred all over the field, and the fans who came to see him make his final bow to the football world were not disappointed, even though he failed to carry the ball over the goal line himself.

Boy Scout Band To Give Two Concerts Sunday Afternoon

Ada High School Boy Scout band will render two concerts Sunday afternoon, one at Homer school and another at Oakman, according to an announcement this afternoon by Scout Executive Harry W. Miller. Those who have volunteered cars to transport the band boys would report to scout headquarters promptly at 1:30 Sunday afternoon.

The girls glee club of Ada high school, under the direction of Miss Inez Donaldson, will give a sacred concert Sunday afternoon at 2:30 at Latta consolidated school. The Latta school truck will meet the girls at the high school building at 1:30. Rev. J. H. Ball, pastor of the local Methodist church will accompany the club for a short talk. Judge Orel Busby, president of the local Scout Council under the auspices of which the concert will be given, is to preside. Mr. and Mrs. C. C. Ballard of the Methodist church will sing.

FORD'S OFFER DECLARED BEST ON MUSCLE SHOALS

(By the Associated Press)
WASHINGTON, Jan. 7.—Secretary of War Weeks, after a short conference today with C. G. Tinkler of San Francisco, whose construction company has submitted an offer for the Muscle Shoals, Ala., Nitrate and Power project, stating that the bid by Henry Ford, "was the only comprehensible proposal before him, which included the construction of the power plant and the manufacture of fertilizer."

ZACK WHEAT, ROUSH AND KOPF ON THE BLOCK

Eddie Roush, left; Zack Wheat, above at right, and Larry Kopf, below. That Zack Wheat, Brooklyn outfielder, is to be traded to the Reds in a deal which will bring Catcher Mike Gonzales, late of the Giants, to the Dodgers, is the rumor now. While Garry Hermann swears he will not trade the sulking Eddie Roush, a deal to take Roush from the Reds is possible. Larry Kopf and Greasy Neale are two other members of the Reds booked to go soon.

Knockout King of France Will Meet Ledoux This Month

PARIS, Jan. 7.—One of the most important ring battles staged here in a decade is set for Jan. 9, when Eugene Ciqui "the Knockout King" meets Charlie Ledoux in a 20-round encounter for the bantamweight championship of Europe, now held by Ledoux.

Should Charlie Ledoux be returned the winner he will journey to America where he has signed up to meet Joe Lynch, Joe Burman, Pete Herman and Johnny Buff. If Ciqui wins the fight, Ledoux plans to retire immediately.

The purse is the largest ever offered for a pugilistic encounter in France, being 300,000 francs, which will be divided 70 percent to the winner, 30 to the loser. When Jack Johnson met Frank Moran here in 1914, the stakes amounted to 200,000 francs, which has not yet been paid owing to legal entanglements.

ATTENTION LAWYERS AND LAW STUDENTS

FOR SALE—Two volumes Cooley's Blackstone and three volumes Greenleaf on Evidence, at a bargain. Good as new. See these at the News office. T. H. HENLEY

Prohibition Men Swoop Down Upon Town in Wisconsin

OSHKOSH, Wis., Jan. 7.—A flying squad of prohibition agents, acting on secret orders, swooped down upon Oshkosh last night by train and made 20 raids similar to those carried out in Wyoming recently and announced from the Washington prohibition office.

In several places the officers had to push their way in, but generally there was no resistance and the proprietors were completely surprised. All were arrested and ordered to report to the district attorney today.

Two New Records Set Up In City Caging League By Teams Friday Night

NEW MEN DEFEAT OLD OXFORD TEAM IN ANNUAL GAME

(By the Associated Press)
OXFORD, Jan. 7.—The "new men" beat the "old men" by a score of six to nothing recently in the annual intercollegiate football game played by Americans in Oxford University. The University Parks field is rough and turf-covered very unlike a good gridiron. The boys appeared in track suits and sweaters since no football togs were to be had in Oxford.

But the 250 rooters and the shouts of "go get 'em" and "hold 'em" and the familiar line plunges and forward passes made up for the lack of football atmosphere as regarded externals. As usual, the English spectators were astounded at the referee's cheerful firmness when he remarked casually to some of the players who were grumbling a little, "you lose five yards if you keep on crabbing."

F. W. Layman, Wyoming and Wadham, fullback for the new men, was the star of the game. He made the touchdown in the second quarter breaking loose around right end for a 40-yard run.

W. C. Frierson, Tennessee and Wadham, quarterback for the new men, showed good generalship, while W. L. Holleman, Oklahoma and Merton, made many gains through the line. L. M. Jigitts, Mississippi and St. John's and C. L. Mock, Ohio and Hartford, did brilliant running and tackling for the old men. The made several successful forward passes.

News and Battery Stage a Tie Game; Teachers Bury Opponents.

Two new records were established in city basketball league playing in the Teachers College gym Friday night. The Ada News and Battery F teams staged the first tie game of the league season, a battle which in many respects was the most thrilling of the season. The Teachers College established a league high-score record by downing the Business College 57 to 13.

An extra five minutes of play to break the tie in the News-Battery game left the Battery victor.

The pedagogs had a walk-away with the Business College, scoring almost at will. It was not until the last quarter that the Business College began fighting and ran up the majority of their 13 points. Many excellent plays were pulled by the teachers, who, matched against a team far their inferior, could get by with almost anything in the line of straight basketball. The game was not interesting. Thompson's men devoted most of the game to running signals, which almost always proved successful. Goal shooting was for the most part from a point near the basket. Few spectacular plays were made by either team.

A different tale is to be told of the Battery-News game. The News men triumphed over the Battery in their first game played together by a score of 11 to 9. Last night's game was a dogged fight by both sides, the News men trying to repeat and the Battery determined to continue their march to victory.

It was in the last of the first half and the beginning of the last that the penpushers did their best work. The Battery took the lead, lost it and later took it again, only to be tied at the final whistle. Jobe proved the man of the hour when he tossed the necessary goal in the extra five minutes play, winning for his squad by one point.

Thrill Is Abundant.
At no time was the thrill lacking. Both teams fought hard and fast. The News force had more material out last night than ever before and the men were in good form. Battery F, which has presented the most formidable team outside of the teachers, was hampered by the loss of Payne, who although playing part of the game, is suffering from a broken hand. Coach Wilenzick made his greatest mistake of the season in starting his line-up as he did, and his men failed to get into the game until he changed it into the usual line.

At the same time, the News men who suffered a relapse last Monday night and let the Business College trample on them, showed great form and surprised fans by their stellar playing.

Battery-News Game.

Battery F.	Pos.	Ada News
Jobe	F.	Bentley
Wilenzick	F.	Stotts
Healey	F.	Sherman
Johnson	G.	Craig
Dorsey	G.	Floyd

Substitutions: Waner for Stotts, Auld for Craig, Craig for Auld. Battery F: Nealy for Johnson, Johnson for Wilenzick, Payne for Nealy, Nealy for Payne. Summary:

Field goals: Jobe 3, Johnson 2, Dorsey 1, Nealy 1, Payne 1, Bentley 5, Sherman 1, Waner 2; free goals, Bentley 3, Johnson 6, Stotts 1, Waner 1, Payne 1; personal fouls, Batter F 14, Ada News 8; technical fouls, Battery F, 5, Ada News 2.

Bentley played well at forward, getting five field goals, which is one of the best records established in a game as hotly contested as the game last night. As a rule, one man does not generally get as good a showing in a hard game, according to the dope of the city league.

Teachers-Business College Game.
Teachers Col. Pos. Busi. Col.
Newton F. Newcomb
Waner F. Byrd
Little C. Branscome
Evans C. S. Dew
Chism G. H. Dew

Subs: Crawford for Chism, Harrison for Waner.

Summary: Field goals, Little 1, Newton 10, Waner 5, Harrison 1, Byrd 3, Newcomb 2; free goals, Little 2, Byrd 2, Waner 1, Newcomb 1. Personal fouls, Teachers College 5, Business College 3; technical fouls, Business College 2, Teachers College 3.

Wilson referee for both games. Played in 15 minute halves.

COLBERT ITEMS

Mr. Hooks of Franks preached here Saturday night and Sunday. Jake and L. D. Bastrop left Monday, to enter school at Stillwater to take a course in dairying.

Alas! Another fair daughter and noble son of Colbert are married. Miss Flora Coventon and Mrs. Ted Rushing were married New Years day.

Miss Grace Hyder was guest in the Weston home Sunday.

Mr. and Mrs. A. R. Selph spent New Years day with Mr. Goggin. Arthur McCurry has purchased a Ford.

The B. Y. P. U. elected new officers Sunday night, with Green Floyd, president; Miss Fae Coventon, secretary; Miss One Wood, leader No. 1; Miss Pearl Walker, leader No. 2; Mrs. Mae Richmond, quiz leader.

Mr. and Mrs. Harrison Bessmore are visiting at Byng this week.

HOWDY DO!

Next time you get to talking about the Yankees and the chances for repeating in the American league race in the 1922 campaign give a thought to the possibility of Mr. Lefty O'Doul having some part in their attempt.

Discussion of the Yankees' pitching strength has centered around Sam Jones and Joe Bush since those luminaries were acquired from the Red Sox by trade a short time ago. But Yankee fans believe that O'Doul may string along with that pair as a regular and important member of the hurling staff.

Lefty has been recalled from the San Francisco Pacific Coast league club for a trial next spring.

O'Doul was obtained by the Yankees after the 1918 campaign via the draft route.

Lefty showed the Yank owners the next spring that he had a wonderful arm, plenty of speed and ability as a batter. But he lacked control. Miller Huggins worked hours with him that year, but failed to tame him. The following season the Yank manager tried to make an outfielder out of him. This idea failed, too, and both O'Doul and Huggins were discouraged over Lefty's chances. So last year he went back to Frisco.

All he did as a hurler for the Frisco club owners was to win twenty-five and lose nine games—a .735 average. He allowed an average of 2.39 runs a game in forty-seven games, a total of 312 innings.

He still showed his wildness, however. He issued ninety-two bases on balls. Undoubtedly a small number of those were intentional ones on orders. But when he was finding the plate the batters were having their troubles, which is indicated by the fact that he fanned ninety-seven men.

He showed clearly that he is the slugging type of pitcher by slamming the ball at a .338 clip.

In The Oil Fields

Estimated production of the fields of the Mid-Continent at the close of the past week was as follows: North Louisiana, 79,000 barrels; Arkansas, 43,600 barrels; North Texas, 138,350 barrels; Mexico, 157,000 barrels; Kansas, 85,500 barrels; Oklahoma, outside of Cushing, Shamrock, Burbank, Hewitt and Healdton 212,000 barrels; Cushing and Shamrock, 25,000 barrels; Healdton 22,000 barrels; Hewitt, 34,500 barrels; Burbank, 32,500 barrels; total, 829,450 barrels, a gain of 35,460 barrels, in comparison with the preceding week.

The estimated daily production of heavy gravity oil in the Gulf Coast field was 93,120 barrels.—Oil & Gas Journal.

BOARD TO PLAN FULL TERM FOR CITY'S SCHOOLS

At the regular Monday night meeting March 6, the Ada school board will take up the matter of raising the remaining amount of money needed to run city schools the full nine months term. It is stated by officials of the superintendent's office that about \$10,000 will be needed to run schools the full term. This in addition to the amount now in the treasury.

Money now on hand will run the schools through March and April, it was stated, but salaries for May must yet be raised. No definite plans have been decided on as to what means will be taken to raise the money, but it was indicated that the same steps that are being taken by the Ardmore, Shawnee, Oklahoma City and other state high schools will be adopted here.

District Democrat Meeting Is Called By State Chairman

Calls for three district Democratic committee meetings, including the fourth district in which Pontotoc county is located, have been issued by Democratic State Chairman Ben Lafayette.

The fourth district meeting will be at Holdenville March 9. The fifth district meeting will be in Oklahoma City March 8 and the second district at Muskogee March 7. Other congressional meetings will be called as soon as county organizations have been perfected in 12 counties not yet heard from. Lafayette said. The plan is for congressional meetings to be out of the way as quickly as possible to permit a call for the state committee meeting in Oklahoma City about March 15.

SOONER QUINTET TO END SEASON WITH MISSOURI

NORMAN, Mar. 1.—(Special)—With Soonerland snowed under, all outdoor sports abruptly ceased Tuesday and attention was centered on the basketball team which ends the 1922 season here Saturday, March 4 with the Missouri Valley champions, the Missouri Tigers.

The Tigers will invade Soonerland with one defeat to mar their 1922 record and with the prestige of a 47 to 27 victory to their credit in the first game of the season with the Sooners. Little hope is held in Oklahoma for a Sooner victory and with the Oklahoma five shot to pieces from the strenuous northern trip of last week which required four games in four successive nights, it looks easy for the Tigers here.

Nine cagers have earned the basketball letter this season. The men who have earned their first basketball "O" are William Stahl, Perry, Wilfred Morse, Blackwell, Dixie Gilmer, Helena, Alpha Johnson, Helmer, Harold James, Ardmore, Men who earn the second caging "O" are Howard Bonbrake, El Reno; William Coker, Council Hill; and Myron Tyler, Oklahoma City, has earned his third initial with the Sooners. Tyler is a football and baseball letterman and James and Stahl both hold football letters.

COUNTRY SCHOOL GIVES GREATEST CHANCE TO TRAIN

(By the Associated Press) CHICAGO, Mar. 1.—The one-teacher rural school offers the very finest field for teacher training in service, J. S. Hoffman, superintendent of Hunterdon county (New Jersey) schools, told this afternoon's session of the Department of Rural Education meeting here.

"In the one-teacher rural school," he said, "there is less rigidity and more opportunity for flexibility in organization than can be found in the exacting machinery of a closely graded system. The average rural community is either indifferent to progress in education training or passively satisfied with inherited conditions, and the good school keeper is as highly appreciated as the good school teacher."

"Wise administrators and supervisors know that the ultimate result of their ideals and plans must reach the child through the teacher who is in intimate and constant contact with him."

Taking for his subject "The County Unit for High School Consolidation," A. F. Harman, county superintendent of Education, Montgomery, Alabama, said that consolidation in his county would have been impossible except for a "magnificent system of public highways." Good roads are essential there, he said, because the population in the rural areas is distributed over a wide area. Mr. Harman attributes the success of rural school consolidation in Montgomery county to the establishment of the county unit of control which gives wide authority to a county board of education.

Other speakers on today's program include W. H. Ray, Tipton, Iowa; A. C. Loomis, Hiawatha, Kan.; and John W. Foote, superintendent of Rural and Elementary schools, Louisiana.

The British government plans to place a school within reach of every child in Palestine.

GRECIAN BATHING SUIT IS EUROPE'S NEWEST OFFERING

Europe says this is a bathing suit and goes even farther and says it is smart. It is hard for Americans to believe that bathing suit fashions can come from any place except Los Angeles, but this idea for beaches where the one-piece variety is barred.

Missionary Society Meets. The Young Matron's Missionary society of the Methodist church met at the home of Mrs. Mears Monday afternoon.

Mrs. Carl Bishop, leader for the afternoon, opened the service with song and prayer and a scripture lesson from Isaiah 49. Talks on "Islam and the Near East" were as follows:

Discussion of Moham Mendanism. Map study of countries now occupied. —Mrs. F. H. Wozencraft. Customs and Religion of Moslem World. —Miss Sarkeys.

Christianity's Task in Near East. —Mrs. Hagar.

Mrs. Myers read a letter from a friend who is now a missionary in Arabia. She revealed the joys and hardships of a missionary's life.

Miss Esther Sarkeys is a native of Syria and has just recently come to America. She was dressed in Arabian Costume and her talk was instructive as well as entertaining.

The laws and customs of the Moslem world were presented vividly.

Delicious refreshments were served. The next meeting will be March 13, at the home of Mrs. Tom Thomas, 314 South Francis. All ladies interested in this work are cordially invited to be present.

Harvey's Force Entertains. Mr. and Mrs. W. E. Harvey and the members of the force at their Ford and Fordson plant on East Main entertained a number of friends, business men and farmers at a luncheon today at noon. Sandwiches and coffee were enjoyed by those present.

A. C. Fox, assistant manager of the plant at Oklahoma City; L. M. Moffitt, chief road man; S. D. Morris, agricultural tractor manager; and T. W. Robinson, manager in charge of this district; and J. D. Presley, special service man, were also present.

Representing the Moline Plow company was F. L. Vigo; the Oliver Plow company was represented by H. M. Cox; and the Athens Plow company was represented by H. G. Soutar, state agent.

After the luncheon the crowd was directed into the garage where lectures were given and pictures shown. Several scores of high school and college students were present to get the information. Pictures of the various Ford plants were thrown on the screen, showing the efficient organization and magnitude of the vast manufacturing establishments.

It was the plan to give most of the timeto the tractors, but on account of the inclement weather many farmers could not get into the plant, but the information was given to the school boys and girls and others who were present.

New Thought Class. To further the spirit of New Thought in Ada, anyone interested in any of the organizations connected with the International New Thought Alliance, or any one wishing to join a class in the study of New Thought, please address Mrs. J. J. Hickman, 824 East Fifteenth street, Ada, Oklahoma.

Fahrenheit, who designed the thermometer bearing his name, died in 1736.

GOD NEEDS HELP OF HUMAN AGENT REVIVALIST SAYS

God does a God's work and a God's work only; but even the Deity needs help—help of human agency when it is in the realm of human achievement.

This was the assertion made last night by Rev. C. R. L. Vawter evangelist, in continuing a revival meeting at the First Christian church.

"When I say that God needs help I mean Deity, Trinity," the speaker said. "This in itself seems to be a paradox, self contradictory. To me Almighty means that he can do all things; if he can do all things how can it be that he needs help?"

"I am not an evolutionist. I believe that God spoke the stars into their places; he is Almighty unless he limits himself."

To make his discourse clear, Rev. Vawter used several simple illustrations, declaring that when a woman sews, all she needs is a needle, thread and a thimble. This is a very simple equipment. But if she uses a sewing machine, she must have more—she needs a treadle, wheels, band, shuttle and all the other parts that go to make up a machine. If she loses one part the work stops.

The evangelist then asked how many men in his audience had sowed grain. He said in the mountains of Kentucky all the equipment needed was a sack containing wheat, thrown over their shoulders. In this part of the country they have a better way, he cited. If it please the farmer to use a drill, he must have all parts of the machinery and must have horses and harness.

"We used to cut wheat with a cradle," he said, "but I have seen a great machine drawn by 38 horses. It cut, threshed and measured the grain."

"God is powerful and all-wise so he chose a plan for the saving of the world. It is 'So faith cometh by hearing and hearing by the word of Christ,' Romans 10:17."

Special music has been promised for all bad nights.

Obregon Requested To Take Americans In His Confidence

MEXICO CITY.—An appeal for President Obregon to take the American people into his confidence in matters concerning the recognition by the United States, coupled with an urgent demand that something be done to restore diplomatic relations between the two nations, was made in a signed editorial today in the newspaper El Universal by its publisher, Felix Palavicini.

The president is asked to explain through the press what the demands of the United States are and to take counsel with the nation's wisest men to how the demands can best be met in a manner commensurate with national pride and dignity.

STUDY OF GERMAN STILL UNPOPULAR IN O. U. CLASSES

NORMAN, Mar. 1.—(Special)—Spanish and French languages are being studied by the majority of students at the University of Oklahoma and German is still very unpopular, according to the latest registration figures given out by Dr. Roy T. House, head of the modern language department.

Out of 1,014 students enrolled in the modern language department only 27 are studying German. This is a very serious situation, Dr. House said. Students neglect German for the romance languages and do not seem to realize the need for the knowledge of German. Most reputable schools require a reading knowledge of it for the doctor's degree, some schools require it for the master's degree and some even for the bachelor's degree.

Scientific schools require German in some instances. Vassar college used to require it but later was made an elective subject. This year, due to a movement of the Vassar alumni association, German was again made a required subject. Throughout the country there is a strong tendency back toward German, Dr. House said.

For three years there was no German offered in the University of Oklahoma. It was revived in 1921-22 with a beginning class of seven. This year, first and second year German is offered with a decided increase over last year but still with a very small percent of the modern language students. The school is not yet awake to the need for German.

Sooners To Wrestle Central Normal Men Tomorrow Afternoon

NORMAN, March 1.—(Special)—Wrestling Coach Grover C. Jacobson failed in his attempt to schedule the University of Texas wrestlers for a match with the Sooners at Norman March 2 and accepted the request of the Central Teachers College grapplers for a match on that date.

The Sooners will be handicapped by the loss of two of their leading matmen due to ineligibility. Russell Grimes, Walters and James LaMar, Morris, were caught in the monthly report of ineligible athletes along with Howard Bonebrake, veteran Sooner basketball forward. Arnold, former 115 pound letter man, will probably work in Grime's place while Jackson will work in the 158 pound class.

Armour, 125; Reed, 135; Smith 145; Cooper, 175; and Walden, heavyweight, will comprise the rest of the Sooner squad to meet the teachers Friday.

Light on daily life in the early Christian era is given in Egyptian documents recently discovered.

VETERAN WORKER IN STEEL MILLS IS GRANTED PENSION

CLEVELAND, Mar. 1.—Edward Quilty, who worked in Cleveland rolling mills before steel was made in America, before the Messmer converter had been introduced and before the open hearth period, has just been pensioned by the American Steel & Wire company, United States Steel Corporation branch, with the longest service record of any of the 4,700 employees pensioned by the steel corporation. His length of service includes 56 years, 4 months and 16 days and in all that time he was not once late to work, his record shows.

Mr. Quilty started to work when he was 10 years of age, packing spikes for the old Cleveland Rolling Mills company, later absorbed by the American Steel & Wire company, which in turn was taken over by the United States Steel corporation.

He began working when iron rails were made by the "puddling" process. He has seen the growth of rolling mills from the days when they were operated by hand. Mr. Quilty joins the list of pensioned Cleveland employees of the U. S. Steel corporation subsidiaries here, which numbered 270 and received \$67,540 in pensions in 1921, according to figures given out in the annual report of the U. S. Steel and Carnegie Pension Fund here.

DID SNUBBING OF LINA CAVALIERI CAUSE MURATORE TO QUIT MARY'S COMPANY

Lucien Muratore, Mary Garden and Lina Cavalieri were friends when the feminine impresario greeted Muratore and Miss Cavalieri when Muratore arrived in San Francisco for the present season.

Did the snubbing of Lina Cavalieri, his wife, by Manager Mary Garden, cause Lucien Muratore, often called "Caruso's successor," to quit Mary's company in a huff the other day? Muratore explained his action by saying that Miss Garden changed her mind too often and her many moods worried him so that he could not sing his best.

THE COTTAGE GARDENER

SETTING PLANTS AND TRAINING TO STAKES

WHEN AND HOW TO PLANT CROPS

U. S. Department of Agriculture Gives Advice to the Home Gardeners.

DIVIDED INTO FOUR GROUPS

First Vegetables That Will Withstand Frost; Second, Semi-Hardy Crops; Third, Those Easily Killed; Fourth, Heat-Loving Plants.

Common garden crops are divided by the United States Department of Agriculture into four groups as regards the time of planting them in the open ground.

The first group includes the vegetables that will withstand considerable frost and which may be planted two or three weeks before the danger of frost is past in the spring. The second group, or semi-hardy crops, may be planted a few days before, or about the time that the last killing frost is likely to occur. The third group, those easily killed by frost, should not be planted until all danger of frost is over. The fourth group, the heat-loving plants, should never be planted in the open until both the soil and the air are thoroughly warm.

Among the crops of the first group—that may be planted before frosts are past—are Irish potatoes, smooth peas, onion sets, cabbage plants, kale, turnips, beets, lettuce, and mustard. They may be planted early because they require some time to come up. While the young plants are injured by frost, by the time they sprout and come to the surface, frost danger is likely to be past.

Don't Follow Moon Rule.

Some gardeners formerly believed in planting Irish potatoes and certain other garden crops according to the signs of the moon. No one seems to know how the old moon theory originated, but it seems to date back to prehistoric times and probably was based upon the method of keeping time by moons rather than by months. There is no definite experimental data to show that the moon has any influence one way or the other upon plant growth, and experienced gardeners prefer to plant their potatoes at a time when the weather and soil conditions are right rather than according to the phase of the moon. Experience has shown that the point of most importance is to have the land in first-class condition for planting, then proceed to plant as soon as weather conditions permit.

The dwarf or smooth varieties of English peas may be planted about the same time as Irish potatoes, or just as soon as the ground is dry enough to work in the early spring. Here again soil preparation is important, and the ground should be made fine and mellow before planting. Opinions differ as to the depth to which the seed peas should be covered. Some authorities claim they should be covered as much as 4 inches; while others maintain that 2 or 3 inches is sufficient. Much will depend, however, upon the character of the soil in which the crop is planted. If the soil is a light sandy loam and inclined to dry out quickly, the peas should be covered 3 to 4 inches. But if the soil is rather heavy and inclined to pack closely, they should not be covered more than 1 to 2 inches. The varieties of peas having wrinkled seed coats should not be planted until about two weeks after the smooth varieties. They are just a little more susceptible to injury from frost and will mature about as early if planted when the ground is slightly warmed.

When to Take Onions.

In the case of certain garden crops,

the investment in seed is too great for taking a chance with the weather, but with beets, lettuce, and radishes a very small quantity of seed is required, and if they come through in good shape, the product will be ready for use much earlier than if the planting were delayed. About 25 or 30 feet of row will give all the early beets required by an ordinary family. Radishes may be planted in the rows with early peas. However, it will be necessary to remove the radishes before they begin to crowd the peas. As a rule, radishes will be ready for use in three or four weeks after planting, or just about the time that the peas have begun to make a vigorous growth. Most gardeners make the mistake of planting too many radishes, or at least of planting too many at one time and not being able to use the product.

The old-fashioned method of growing lettuce was to plant a bed along one side or in one corner of the garden, and when the plants were large enough, to thin them, using the product as needed and leaving the remainder to grow larger. This method of growing lettuce is not so desirable as the plan of planting it in rows, where it can be more easily cultivated. Lettuce is very susceptible to heat, and it is difficult to grow it after the weather has become hot. For this reason it is best grown as a spring and a fall crop. Two or three plantings at intervals of 10 days or two weeks in spring and a planting or two in autumn should be sufficient for the needs of the ordinary family.

Planting Second Group.

The second group, including carrots, beets, parsnips, radishes, salsify, wrinkled peas, spinach, Swiss chard and early sweet corn, may be planted shortly before the probable time for the last spring frost. The planting of these crops should be so timed that they will escape frost and yet be started just as early as possible. The same planting methods should be followed as for the extremely early crops.

The third group of garden crops, or those that should not be planted until after danger of frost is past, includes cucumbers, muskmelons, okra, snap beans, cauliflower, and well-hardened tomato plants. The time of setting tomato plants, however, will depend on local conditions. If they are not crowded each other too much in the plant bed, it may pay to delay setting them in the open ground until the air is thoroughly warmed. Little is gained by planting tender plants in the open ground too early.

The fourth group of plants, commonly known as the heat-loving plants, includes peppers, eggplant, Lima beans, sweet potatoes, and summer squash. These crops are easily injured by cold nights and periods of rainy weather, and it is always best to delay planting them until a safe period has been reached. It should be borne in mind that certain soils warm up slowly in spring, and that such plants as eggplant and peppers are susceptible to injury from cold soils.

RICH FERTILIZER

The cleanings from the poultry house are valuable as a garden fertilizer, and these should be saved in barrels or some other receptacle where they can be kept reasonably dry until they are spread upon the garden.

VEGETABLES NEED ROOM

One serious mistake made by many gardeners is planting too great a variety of vegetables in a small space, with consequent crowding and poor growth, says the United States Department of Agriculture. It is much better for the gardener whose space is limited to plant a comparatively few kinds of vegetables, not more than 10 or 12 out of a possible 50 or 60.

KEEP AUSTRALIA WHITE IS TREND OF LABOR VOICE

(By the Associated Press)

SYDNEY, N. S. W., Mar. 1.—Socialization of industry; maintenance of a "White Australia" and the abolition of the state legislative councils, the state governors and the senators are included among the objectives of the Australian Labor party, as set forth in the revised platform and constitution, formulated in conformity with the decision of the recent interstate conference of the party and made public today.

The objectives are listed as: "The socialization of industry, production, distribution and exchange, to be effected through the constitutional utilization of industrial and parliamentary machinery; through the organization of workers along the lines of industry, the nationalization of banking and all principal industries; the municipalization of such services as can be operated best in limited areas; government of nationalized industries by boards upon which the workers in the industry and the community shall have representation; the establishment of an elective supreme council by all nationalized industries; the establishment of labor research and labor information bureaus and educational institutions in which the workers shall be trained in the management of nationalized industries."

The platform includes the "cultivation of an Australian sentiment and the development in Australia of an enlightened and self-reliant community." Complete Australia self-government as a British community is favored, but opposition is expressed to imperial federation. Unlimited legislative powers are proposed for the commonwealth parliament, with such delegated powers to the states or provinces as the commonwealth parliament may determine.

All incomes from personal exertion up to 200 pounds should be exempt from income tax, with a further reduction from the taxable income of 100 pounds for a married person and 60 pounds for each child or other person wholly dependent upon the taxpayer for support, the platform provided.

Properly Caring for Infants Will Reduce Number of Sightless

(By the Associated Press)

CHICAGO, Mar. 1.—Improvement in medical knowledge, particularly in care devoted to infants, and education of the public, reduced the blind population of the United States nearly 5,000 in the ten year period covered by the 1920 census, according to the Journal of the American Medical Association.

In 1910 the census showed 57,272 blind persons, while ten years later the number was 52,617.

Analyzing the census figures, the Journal points out that the ratio of 49.8 blind persons per hundred thousand population averages one victim of blindness to every 2,000. Males predominate over females by about three to two.

Blindness is most common among Indians, with about 200 blind per hundred thousand population, or four times the rate for the country as a whole. Negroes also have a comparatively large amount of blindness, with 60 per hundred thousand. There are 48.3 blind per hundred thousand white persons, and only 23.2 per hundred thousand among the Japanese and Chinese.

Of the geographic divisions, New England has the greatest amount of blindness, with 63.5 per hundred thousand, while the lowest rate is in the west south central states, with but 41.6. Of the states, New Mexico tops the list with 153.2 per hundred thousand, and Wyoming is at the bottom with only 15.4.

EVEN THE CAMEL HEARS OF MOIST LAND AND BOLTS

MUSKOGEE, Mar. 1.—The Reverend Peter S. Cooper, negro preacher, was afraid for a minute last night that the d. t. days were not over.

No, he hadn't been drinking—but it was the vision that met his startled gaze as he ambled slowly down North Fourth street behind his little gray mare that caused his worry.

Out of the darkness loomed a lum

WEAK; RUN-DOWN

Carolina Lady Got So She Could Just Drag.—"Cardui Built Me Up," She Declares.

Kernersville, N. C.—In an interesting statement regarding Cardui, the Woman's Tonic, Mrs. Wesley Mabe, of near here, recently said: "I have known Cardui for years, but never knew its worth until a year or so ago. I was in a weakened, run-down condition. I became draggy—didn't eat or sleep to do any good; couldn't do anything without a great effort. I tried different remedies and medicines, yet I continued to drag. "I decided to give Cardui a trial, and found it was just what I really needed. It made me feel much stronger soon after I began to use it. I began to eat more, and the nervous, weak feeling began to leave. Soon I was sleeping good. "Cardui built me up as no other tonic ever did. "I used Cardui with one daughter who was puny, felt bad and 'died out all the time.' It brought her right out, and soon she was as well as a girl could be. We think there is nothing like Cardui. "Do not allow yourself to become weak and run-down from womanly troubles. Take Cardui. You may find it just what you really need. For more than 40 years it has been used by thousands and thousands, and found just as Mrs. Mabe describes. At your druggist's. NC-148

bering, waddling quadruped, wide eyes blazing, banners flying, and—seemingly—as big as the side of the house.

It was a camel—fitting emblem of the dry era—which had evidently mistaken Standpipe Hill for an Egyptian pyramid or Cleopatra's abelisk and was speeding homeward.

Tough on Old Gray Mare

The preacher's old gray mare snorted, her flanks quivered, she reared back and broke out of the shafts and took out across a vacant lot, calling for aid and guidance from the great god, Eohippus, with loud neighs.

The preacher brushed off part of the mud which had stuck to his clothes when he landed in a puddle, and dashed to the police station.

About the same time, Pat, the gruff Irish keeper of Sarah Bernhardt, the camel, appeared.

"Sarge," he whimpered, "you must help me catch Sarah. If you don't Chu Chin wyl never chow tomorrow night."

Bound for the Arkansas.

Sarah—so called because of her 73 summers—had gone on when her turn came last night all right, Pat said. Then she was led out into the alley behind the theatre and left tethered while Pat put the little black burro, Sarah's stablemate, through his paces. But Sarah was directly under the dripping water which ran off the theatre roof, and the icy rivulets running down her neck drove her frantic; she broke her tie rope and beat it.

The police force discarded revolvers and got on the trail, but seemingly Sarah had made good her escape to the desertlike sands of the Arkansas river bottom, for she was not located. No other casualties were reported from her made career except the misfortune which overtook the Reverend Cooper.

Recitation Period Must Go, Educator Declares in Meet

(By the Associated Press)

CHICAGO, Mar. 1.—The old-fashioned recitation period must go, John M. Foote, state supervisor of rural schools for Louisiana, told the department of rural education of the National Education association at its meeting here this afternoon. It is replaced in Louisiana by "the assignment-study-test-review recitation." Definite assignment, directed study, and testing to see whether the lesson has been mastered, are stressed. Mr. Foote said a unique program for instructional supervision employed in Louisiana is being received enthusiastically by teachers and meeting with general acceptance from the public. He said instructional supervision can now be based on the results of education and mental tests, and supplemented by age-grade studies.

The rural one-teacher school of the finest field for teacher training J. S. Hoffman, superintendent of Hunterdon County Schools, Flemington, N. J., declared this afternoon at a meeting here of county superintendents of the National

Education association. There is opportunity for more flexibility than in a closely graded system, he explained. "Herein lies a virgin field for experimentation that should attract the real supervisor who is imbued with the idea and spirit of purposeful activity."

"Tyrol" has just come from the hands of its authors. For a sentimental singing and yodeling duet as "Tyrol" is, none better than Bernard and Kamplain could have been selected to put this number over. REVERSE, Geo. Wilton Ballard singing "Those Days Are Over" a ballad like Ballard "does" best. No. 50910.

Mr. Edison's Special Marimba Band Re-Creation has arrived

The marimba is the primitive ancestor of the modern xylophone, and originated in Central America. Lovers of this curious and mellow instrument are increasing in number every day. Realizing this Mr. Edison instructed his Recording Studios to exercise extra effort in selecting two numbers which would display in the fullest manner the peculiar power of this instrument. "Blue Bird Impassioned" is a musical fantasy very tuneful and interesting in its melody, while its companion piece "In Storm and Sunshine March" is full of the martial spirit. No. 50906. All of these numbers are exceedingly good and we would be glad to have you drop in and hear them at your earliest convenience.

FIVE IN ALLEGED 'MOONSHINE' RING HELD FOR MURDER

(By the Associated Press)

LOS ANGELES, March 1.—Five men, alleged members of a gang of bootleggers, "tipped off" to the police by a girl, were arrested at a house in West Washington street early yesterday and booked at central station, where they were held while detectives investigated information directing suspicion of the murder of William Desmond Taylor slain film director, against them.

The men gave their names as William East, 63; Walter Kirby, 23; John Kerr, 25; Ray Lynch, 26; and George Calvert, 25. They were booked on suspicion of robbery. Officers admitted, however, that the men were being held for investigation in the Taylor case.

Search for a sixth man, believed to be a member of the alleged gang, was made after the five suspects were arrested by Detectives Jones, Ryan, Johnson and Culp.

Suspicion of the Taylor murder was directed to the arrested men by the story told to the Welch police by the girl, who "tipped off" the alleged gang. She declared she heard two of the men under arrest threaten to "kill Taylor" the night before Taylor was slain.

The girl said she gave her information because one of its members, her sweetheart, had "turned her down."

Two members of the gang, named by the girl, were questioned concerning their whereabouts on the night Taylor was slain. The sixth member of the alleged gang for whom search was made was said to have important information.

The girl declared that the threat against Taylor was made because he had announced he intended to cause the arrest of the bootleggers and expose their activities in motion picture studios. She said the men vowed in her presence to "get Taylor," and that their threats were made on Jan. 31, the day before the murder.

As soon as the girl, whose name is withheld, had told her story, detectives hurried to the West Washington street address.

The girl said the men had been in hiding since the Taylor slaying. She said she had quarreled with the man who was her sweetheart and that was the reason she gave her information.

At the place where the men were arrested, the detectives seized a quantity of evidence which they ex-

WALKS TO CAPITAL TO OBTAIN PARDON FOR SOLDIER SON

Mrs. Margaret Anderson, photographed as she arrived at the White House.

Mrs. Margaret Anderson, sixty, of Sioux City, Iowa, has arrived in Washington after walking much of the way from her home to seek President Harding's aid in obtaining the release of her soldier son, who is serving a term in the penitentiary for an offense during the war.

They declined to state what this evidence was, but indicated that it was important in connection with their investigation.

Two of the five men arrested are said to have come to Los Angeles directly from Chicago, where they have reputations as gunmen. The officers were informed that these two men were wanted in Chicago for a crime there.

Women silk workers in China who have been idle since January pending wage disputes have returned to work at the new wage figures asked for in their original demands.

FIVE NEW WELLS MAY BE STARTED

(Continued from Page One)

4e is still fishing at 2700 feet on the Cook farm. This well is three miles southwest of the Transcontinental well at Maxwell.

Other locations are to be made immediately, but for various reasons no information has been given out. The oil men seemingly have every confidence in the Pontotoc fields and probably a million dollars will be spent here this year in developing the pools. In case excitement gets high, these figures will be considerably enlarged.

Chaney & Huffar Dissolves Partnership

On account of both being candidates we desire to announce that effective March 1, 1922, the partnership of Chaney & Huffar, as attorneys is dissolved. We will take care of all business which we have taken together, but in all future business we will be separate and apart. Mr. Chaney will remain in the office where he has been for the last three years, and for the time being Mr. Huffar will occupy the office adjoining his.

PRESIDENT ASKS AID FOR MARINE

Ship Subsidy Requested By
Harding is Asked for
Boosting Commerce.

WASHINGTON, March 1.—President Harding went before a joint session of congress today with a recommendation that the government end its "costly experiment" in the shipping business, grant subsidy to American shipping interests and by so doing pave the way for the rebuilding of a great American merchant marine as the second line of the nation's naval defense.

With his recommendation, President Harding laid before congress a plan complete down to the last detail of how this can be accomplished.

He called attention to the fact that the recent Armament conference materially lessened the country's naval defenses, and the necessity for this being compensated, in part, by a strong and adequate fleet of merchant craft which will once more carry the American flag on the seven seas of the world.

"The relative of the strength (naval) among the powers would be wholly one of disappointing disparity," said the president, "if ours is to be a merchant marine inadequate for the future. I do not care to stress it as a means of defense. The war and our enforced outlay have already stressed that point.

"The merchant marine," he continued, "is universally recognized as the second line of naval defense. It is indispensable in time of great national emergency."

Shipping History.
The president reviewed at considerable length the history of America's costly shipping enterprise during the war. He warned that the nation is going to have to pocket its losses in getting out of the shipping business.

"The outstanding lesson learned," he declared, "is that the government cannot profitably manage our merchant shipping. The most fortunate changes in the personnel or management would still leave us struggling with a policy fundamentally wrong and practically impossible.

"Having failed at such enormous cost, I bring to you a proposal which contemplates the return to individual initiative and private enterprise."

Those who oppose his plan, the president observed, ought "in all fairness" to propose something better.

However costly the experiment has been, the president observed, "today we are possessed of a cast tonnage and a conviction of failure" and he considered the proposal he laid down as the best way out of a bad bargain for the government. The cost of such a program as he suggested, he estimated would be about \$15,000,000 a year.

In his address, the president did not go deeply into the details of the plan proposed. He merely pointed out its main features—10 per cent of customs dues to go into a revolving fund, the establishment of conversion of a \$125,000,000 fund to lend shipping enterprises and a compensation scheme based on speed and tonnage.

The president called attention to the fact that the government was to get some compensation from the scheme other than a restored merchant marine for commerce and defense, for under the plan proposed vessels thus remunerated will carry United States mails free of cost. Also the remuneration and government aid shall cease when the ships are making 10 per cent on invested capital for their owners.

Registration of New City Voters Is Opened Today

T. O. Cullins, county registrar, stated today that registration booths for the four wards of the city were opened today. Any who expects to vote at the coming city election, and who had not yet registered, must register at this time.

Booths will remain open for the next ten days, he said. Those who have become of age since the last registration and those who have moved to their present precinct since the last registration will be given a chance to enroll. Places to register are listed as follows:

- Ward 1—Fire station, T. O. Cullins, registrar.
- Ward 2—Hope-Conn Drug Store.
- Ward 3—Ellis Furniture store, W. C. Ellis, registrar.
- Ward 4—Davidson Grocery store, O. J. Davidson, registrar.

LIKE FICTION READS OIL FIELD TRAGEDY REVEALED IN COURT AS SPURNED SUITOR IS TRIED FOR MURDER

Above at left is Grace Lee, innocent cause of the tragedy. In center is Albert Lampitt, tried for the murder of Harry Foight, who is shown at the right with the dog which was killed with him. Above (in center) is glimpse of Lampitt's auto before his shack. Below is shack dynamited (Foight had compartment No. 1. Seaton, also killed, was in No. 2) and what was left after the explosion.

Albert Lampitt is on trial at Basin, Wyo., on a charge of blowing up Harry Foight and Worley Seaton with dynamite

while the two were asleep in their bunkhouse in a Grass Creek field oil camp. The state has charged that Lampitt became angered because the demure Grace Lee, adored by all at the camp, spurned his love for that of Foight, and that Lampitt killed Foight.

Lampitt is alleged to have obtained dynamite from the company supply and planted it under the corner of the bunkhouse where Foight slept. The charge was so great Seaton was slain, too, and three other men maimed.

Porto Rican Chief Calls Term in Jail Big Social Success

(By the Associated Press)

SAN JUAN, Porto Rico, Mar. 1.—George R. Shanton, for many years chief of police of Porto Rico, has just served a sentence of 48 hours in jail for contempt of court. He refused to appeal to President Harding to set aside the sentence which had been imposed by Federal Judge Odlin.

The contempt charge was based on a letter Mr. Shanton wrote to the judge asking for an order to destroy some of the evidence which had disappeared after the insular police had made arrests and seized liquor in Volstead cases.

Although Judge Odlin gave Shanton until March 18 to enable him to appeal to the president, the former chief decided to take his medicine instead of asking for presidential favor.

The San Juan Times says he received 600 callers while in jail and refers to his term there as "a social success". Among his visitors in prison was Governor Reilly who, with other citizens and officials had vainly petitioned Judge Odlin to remit the sentence. Shanton was met at the jail entrance by scores of friends who escorted him to his home.

He was captain of Roosevelt's Roughriders in 1898 and afterward served with General Wood in Cuba. President Roosevelt sent him to the Canal Zone as chief of police to clean up the zone in the early construction days and 13 years ago, he was sent to Porto Rico to take command of the 700 policemen composing the insular police force.

Shanton's counsel told Judge Odlin, in making a plea for his behalf, that the insular police had seized 150,000 gallons of liquors and made 2,500 arrests in Volstead cases.

ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Suffers from skin trouble should get a little jar of Mentho-Sulphur from any good druggist and use it like a cold cream.

Let a NEWS WANT AD get it for you.

Can You See Your Ribs?

"It wasn't that I wanted to get fat,—no, I just wanted to put on about 8 pounds more flesh, then I'd be just right. I've nibbled at diets, gorged big meals, I've suffered health resorts, been to fine climates, guzzled milk, buttermilk, olive oil, emulsions, swallowed pills, digestion faded and a score of other 'won't-works'. Finally, it dawned on me. None of these things was building up the new red blood cells I needed. I took S. S. S., the greatest red-blood-cell builder, firm-flesh producer, blood-cleanser known. I put on 7 pounds in a month, and my nerves, instead of strings feel like wires. S. S. S. has the world beat."

S. S. S. is guaranteed purely vegetable in its medicinal ingredients. It has produced amazing results in building up run-down, thin-faced, ambitious men, and in making women of all ages more plump and beautiful, and younger looking. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

S. S. S. Will Build You Up.
